#### PRINTING A PAPER COPY OF THE DIRECTORY

To produce a folded booklet, you must have a printer that can print in full duplex (both sides of the paper) printing or the ability to print one side and then print the other side. For example, you print pages 1 and 4, and then turn the paper over and print pages 2 and 3 on the reverse side.

Please print a few pages as a test example before printing the full booklet. If using full duplex, we recommend also using the setting "Open to Top" for proper collation.
